

Muhammad Usman Awan

Full-Stack Developer

As a full-stack developer with a passion for design, I bring a unique perspective to every project I work on. With experience building both robust and scalable web applications, I have a deep understanding of both **front-end** and **back-end development** with my strong **programming proficiency** and **detail-oriented mindset**.

Work Experience

Fiverr

Front End Developer/Designer

June 2022 - Oct 2023

- Proficient in developing interactive and responsive web applications using HTML5, CSS3, and JavaScript. Completed 8+ orders relating front end development which include image gallery, fixing bugs and errors.
- Hands on experience in WordPress, custom CSS and frameworks like Bootstrap and Tailwind CSS. Completed 5+ orders relating designing. Also some experience with GSAP and Framer motion for amazing JavaScript animations.

Full-Stack Developer

- Proficient in full stack web development using the MERN (MongoDB, Express.js, React, Node.js) stack to build robust and scalable web applications from concept to production. Skilled in developing dynamic and responsive user interfaces using React.js, leveraging state management libraries such as Redux or Context API to maintain application state efficiently.

Projects

CloudBook

[visit](#)

A note-saving app developed using MERN. Also provides authentication.

E-commerce

[visit](#)

An e-commerce store webapp which allows users to search and save different products to their cart,

Pexels Clone

[visit](#)

A clone of image gallery PEXELS to search and download pics and videos.
